

# ***KidCoder™: Advanced Web Design***

## **First Edition Errata Sheet**

*Updated March 4<sup>th</sup>, 2014*

This document lists the known typographical or other corrections to the *KidCoder™: Advanced Web Design* First Edition course.

- In Chapter Twelve, the “Work with Me” on page 222 directs the student to copy a “**funnyfish2.html**” file from the Activity Starters folder. In early copies of the course, that file may contain incorrect content in one `<div>`.

Incorrect content:

```
<div class="funnyfish2">
  <div id="funnyfish2_3">Going...</div>
  <div id="funnyfish2_4">.Going.</div>
  <div id="funnyfish2_5">..Going.</div>
  <div id="funnyfish2_6">...Going</div>
  <div id="funnyfish2_7">Gone</div>
  <button id="fade">Fade in/out</button>
</div>
```

Correct content:

```
<div class="funnyfish2">
  <div id="funnyfish2_3">Fade</div>
  <button id="fade">Fade in/out</button>
</div>
```

To fix, please replace the incorrect content in the starter “**funnyfish2.html**” file with the correct content listed above.
